

MORE CAFE

Garhoud

The restrooms at the mOre café in Garhoud were designed by Wouter Lap and his spouse, Marijke Lap - Heijer using tiles and sanitary ware purchased in Ras Al Khaimah and sundry items that were found in local markets. "We wanted to create a complete extraction of thoughts [from] the moment you walk away from the buzz of the restaurant into the bathroom," says Lap.

Before you enter the main restroom area, the presence of the closed-off corridor effectively underlines the choice of black as the main colour for items inside. The extra space coupled with the huge mirrored wall and the mahogany-framed, steel-cladded toilet doors are intended to relax the guest. "The light, the big mirror and total blackness around you focuses your view and gives you a revitalised and recharged feeling," says Lap.
